ABOUT PARCOURS LE MONDE GRAND OUEST

The association Parcours le Monde Grand Ouest is a non-profit organization whose goal is to diffuse and develop, through both formal and non-formal education, topics related to **intercultural dialogue** and **citizenship** by **enabling young people to engage in European and international mobilities**. Our actions as a mobility-enabling association include the promotion of **youth empowerment**, the establishment of **social links**, and the **professional insertion** of youth aged 18 to 25. Our target public also includes groups with less social or economic opportunities.

Parcours le Monde is partnered with local organizations located throughout the entire Pays de la Loire region of France and offers 7 to 9 month missions for young, motivated individuals who would like to take part in our program.

QUICK SUMMARY

Parcours le Monde is looking for motivated **European volunteers** between the ages of **18** and **30** to take part in a **9-month** volunteering experience starting **in October 2025 until July 2026**. We are based in **Angers, Le Mans, Nantes, Saint-Nazaire** in the West of France,. We are working with various partners in the region of Pays de la Loire,

All volunteers will work together to promote the values of internationality, interculturality, solidarity and citizenship among young people, particularly those with fewer opportunities.

VEIA: PROGRAM DETAILS

VEIA stands for ***Vivre Ensemble Ici et Ailleurs***, or "Living Together Here and Elsewhere". It is a project created by Parcours le Monde thanks to various local funders and aims to promote **intercultural dialogue, diversity, and sustainable development** accross the Pays de la Loire region of France. Volunteers are located throughout the entire region, based in **high schools, community centers, and small NGOs** that work closely with young people. This is just one more reason to volunteer with us, as your impact will be **twofold**: you will participate in the activities carried out by your high school or social center and work with your fellow volunteers to create common projects.

Examples of activities you will carry out during your volunteering experience include :

- Co-facilitate education workshops on citizenship and international solidarity
- Organize awareness and information sessions on international mobility for young people (by participating in forums, seminars, summer job fairs, etc.)
- Organize thematic debates in connection with the SDGs (Sustainable Development Goals)
- Conduct foreign press review
- Organize and present workshops for groups of young people on their departure or return from an experience of international mobility
- Participate in the promotion/valuing of the experiences of young people who have traveled abroad (through radio programs, written and video testimonies, etc.)
- Contribute to linguistic and cultural preparation workshops organized by the association

Gatherings and training:

The volunteers will participate in several regional gatherings to do the following:

- Receive thematic training to learn the basic tools of popular education
- Allow the team of volunteers to meet each other! This will also be an opportunity to meet professionals involved in the volunteering sector
- Receive two days of Civic and Citizenship training

ADDITIONAL INFO

Our locations :

The Pays de la Loire region

Located in the Western part of France, and just two hours by train from Paris, Pays de la Loire has it all! This region is lively, interesting, bike-friendly, and close to the coast! What more could you want?

The cities we have partnerships with range from full-size to small town and from coastal to riverside, so no matter what your preferences are there is a city in Pays de la Loire for you.

VOLUNTEER EXPERIENCES

VIDÉO OF VEIA'S MISSION BY A VOLUNTEER

"Ma mission était de sensibiliser les jeunes à l'interculturalité et à la mobilité. J'ai valorisé les projets de mobilité en créant un document de valorisation qui résume les différents projets menés par l'organisation. J'ai également soutenu l'accompagnement des nouveaux volontaires péruviens par la mise en place d'ateliers linguistiques pour faciliter leur intégration dans la culture française."

"My mission was to raise young people's awareness of interculturality and mobility. I promoted mobility projects by creating a document summarizing the different projects carried out by the organization. I also supported new Peruvian volunteers by setting up language workshops to facilitate their integration into French culture."

"Au lycée je promouvais les programmes de mobilités internationales, je faisais des animations linguistiques et culturelles, j'assistais aux cours et événements culturels. J'ai écrits des articles dans le journal du lycée et plusieurs livrets d'expériences à l'étranger."

"In high school, I promoted international mobility programs, did language and cultural activities, and attended classes and cultural events. I wrote articles for the school newspaper and several booklets about my experiences abroad."

"Ma mission m'a donné la motivation nécessaire pour entrer dans le monde du travail. J'ai travaillé seul et je me suis retrouvé dans un environnement de travail, mais sans les responsabilités d'un salarié. Maintenant, j'ai suffisamment confiance en moi pour pouvoir rechercher de nouvelles opportunités d'emploi."

"My mission gave me the motivation I needed to enter the world of work. I worked on my own and found myself in a working environment, but without the responsibilities of an employee. Now I have enough self-confidence to look for new job opportunities."

PRACTICALITIES

As this project takes place in several different locations, it is difficult to provide exact details on the type of lodging and expenses because it will depend on which city you choose. However, there are a few things that remain the same for everyone:

- This is an European Solidarity Corps. It is supported by the European Union and rights are provided from the national agency.
- Travel expenses will be covered depending on a forfait.
- You will receive **8€** per day for **pocket money** (240€/month)
- You will also receive a monthly allowance for food and transportation is around between **300 and 350€/month**, regardless of which city in France you choose.
- Your **rent will be covered** by the organisation.
- We will have found you affordable housing before your arrival. Usually, volunteers stay in single studios or in colocation. We will provide you more details once we decide in which city you will stay.
- For the insurance, you will have access to **HENNER** and you have to come in France with your European insurance card.
- We will also help you with all the administrative processes (insurance, bank account, etc.) once you are here!
- Speaking French is **not** a requirement to take part in the VEIA project. It will be considered as an advantage, but no worries if you cannot speak it yet! You will surely learn once you arrive. You will also have access to **OLS plateforme**. If you need French classes, we are not providing on it, but volunteers from Parcours le Monde propose workshops once per week. ([How 2 use it](#))

SELECTION PROCEDURE

Interested candidates are requested to send a presentation of yourself and your CV to the email address

accueil.VEIA@parcourslemonde.org

Share with us **short introduction of yourself** as well as your **motivations to participate in the project**. Please specify if you have a preference in where you will be based. After receiving your letter, the project coordinators will have a short Skype interview with you! We will be happy to answer any questions at this time.

*We hope this document has been
informative, inspirational and that we've
made you want to know more! Do not
hesitate to contact us if you need any
further information at all.*

*Thank you and **see you soon!***
